## **Candy Cane Relay**

Form two teams. Designate a starting and finishing line. The first person in each line will receive a candy cane that they will place over their fingers. They can't use their thumbs to hold the candy cane, but instead they hang the candy cane over their fingers, almost as if the candy canes are hangers and the fingers, closet rods.

The first child runs to the finish line and then runs back and passes the candy cane to the second child only using those fingers, no thumbs. The winner is first team to complete the relay with all its players. If a child drops the candy cane need to pick it up using no thumbs and continue the relay.
